## PROFESSIONAL SUMMARY

Frontend Developer with 1+ years of experience specialising in Angular and modern web technologies. Currently working at Accenture under the Applications, Products & Platforms (APP) division within Accenture Health Suite (AHSS). Part of the REACH (Remote Access Channel) team, contributing to configurable, multi-purpose form-based applications tailored to diverse client requirements. Known for quick learning, early client exposure, and ownership of frontend delivery.

## WORK EXPERIENCE

Accenture

Frontend Developer, APP – AHSS (REACH Team)

Bangalore, Karnataka  
Apr 2022 - Present

- Worked within Accenture Health Suite (AHSS) under the REACH (Remote Access Channel) team.
- Developed and maintained a multi-purpose, configurable form-based application that can be customized as per client-specific requirements.
- Took ownership of frontend development while building new application flows for client use cases.
- Designed reusable Angular components to support dynamic form configurations.
- Implemented responsive UI using Angular, Angular Material, HTML, CSS, and TypeScript.
- Collaborated closely with backend teams to integrate APIs and ensure seamless data flow.
- Actively supported and enhanced multiple applications under client management.

## SKILLS
